NEKO CASE

Middle Cyclone

★★★★

A lady with a definite sense of herself and her music, Neko's dark journeys in the alt country landscape take flight on this

album where she flies on the majestic Magpie To the Morning and reigns on the fabulous Pharoahs. A stormer.

LUNIK

Lonely Letters

★★★★

Calm, cool and collected Swiss pop stars don't come along every day, but Lunik are such and this debut

album shimmers with taste and good breeding. Imagine a band pitched somewhere between The Cardigans and Crowded House with a frontwoman, Jael, who can make spines shiver and knees tremble. Nice!
